## U.S. Probation Officer Action:

Based on the recent positives for Marijuana, Ms. Johnson's treatment has been increased to a weekly group and weekly individual therapy sessions. The United States Probation Officer and Ms. Johnson's therapist have also instructed Ms. Johnson to begin attending NA meetings on a daily basis for support and to attend family counseling. Apparently, Ms. Johnson is smoking Marijuana to relieve stress related to the raising of six grandchildren by herself in her residence. Her only means of coping with the misconduct in the past has been to smoke Marijuana. Ms. Johnson is committed to discontinuing her Marijuana use and has promised to attend NA meetings on a daily basis and to obtain family counseling through her local neighborhood high school. Ms. Johnson terminates her home confinement/electronic monitoring program this date and will be encouraged to perform volunteer work in order to avoid long days of inactivity in the residence.

This recommendation is also made based on Ms. Johnson's current age of 64 and that she is the sole provider for six grandchildren she has legal custody of. The U.S. Probation Officer and treatment therapist do not believe that incarceration or residential placement is justified in this case.

Should Your Honor concur with our recommendation to increase group and individual therapy sessions to weekly, require daily NA attendance, and obtain family counseling, please indicate below. Should Your Honor require any further action, please advise.

Respectfully submitted,
